Oops!

I can has a X?

ubuntu-bug xorg

package specific hooks

```
/usr/share/appport/package-hooks/
```

```
import os.path
```

```
def add_info(report):
```

```
    report["FooLog"] = open("/var/log/foo.log").read()
```

```
    if "no driver available" in report["FooLog"]:
```

```
        report["Tags"] = "driver-error"
```

import apport.hookutils

- `attach_file_if_exists(report, path)`
- `command_output(command)`
- `attach_hardware(report)`
- `attach_alsa(report)`
- `attach_gconf(report)`

More bug spam!

Interactive hooks:

- “Please attach the document that causes Writer to crash”
- “Now plug in your camera”
